## **What is Cop City?**

Atlanta Police Foundation is trying to build the largest police training facility in the United States in Weelaunee Forest, a watershed surrounded by primarily Black residents who overwhelmingly oppose the project.

The plans include military-grade training facilities, a mock city to practice urban warfare, dozens of shooting ranges, and a Black Hawk helicopter landing pad.

## **What is the Atlanta Forest?**

We have the highest percentage of tree canopy of any major metropolitan area in America. Our canopy is the main factor in ensuring Atlanta's resiliency in the face of climate change. The forest in Southeast Atlanta is home to wetlands that filter rainwater and prevent flooding. It is also one of the last breeding grounds for many amphibians in the region, as well as an important migration site for wading birds.

The history of this particular land is deeply scarred. In the 1800s shortly after the land was stolen from Muscogee Creek peoples, it was used as a plantation. In the early 1900s, a prison farm was opened where inmates were forced to perform unpaid agricultural labor, marking the rebranding of slavery into for profit prison labor. The Atlanta Police Department currently uses this hallowed ground as a firing range.

This forest is at risk of destruction as the police and Hollywood make plans to pave over Atlanta's largest remaining green space. ●

Like any effective resistance movement, the state is retaliating against anyone involved in the effort to Stop Cop City and Defend the Atlanta Forest.

On January 18, 2023 police murdered forest defender Tortuguita. The autopsy report later released showed they were shot while sitting cross legged with their hands up.

On January 21, 2023 at a demonstration in downtown Atlanta in response to the murder of Tortuguita, the first wave of arrests occurred.

On March 5, 2023 police arrested 35 people attending a music festival in the Forest as the kick off event to a week of solidarity; 23 were charged with domestic terrorism.

The individuals on the following pages have been arrested in connection to defending the Atlanta Forest and resisting Cop City; they have given permission for their names to be publicized. As expected, the state is attempting to intimidate everyone sympathetic and/or involved in the movement. They are throwing the book at those snatched up and arrested, holding many without bail and going as far as charging them with domestic terrorism. They can all use your support. Please write them, share their stories. Show the state that we will not back down despite their threats.

### **What to write:**

Keep in mind all correspondence will be read by cops. These individuals are all pre-trial, anything you say can be used against them later. Keep it light and do not say anything illegal or that could hurt these people further. A nice note of solidarity and support, letting them know they are not alone, is lovely.
